

Seperations

Tools Needed

- Adobe Suite. Illustrator, Photoshop
- Exile Template File
- Freetone Pantone Colors

Artboard Setup

- Use Exile Template File
- Work in Inches
- Use Freetone Pantone Colors

Step 1 – Place the Design on Art Layer

Step 2 – Save a layer copy for all colors in the design and for under base if needed.

Step 3 – Create an under base and name it WUB. All light colors will get a .5 pt stroke on inside. (the white under base is choked. This will ensure it is covered when the color is printed on top). Use Freetone pantone color.

Step 4 – Separate each color onto its layer and rename the layer. Add the layer color name next to the registrations mark.

Step 5 – Save as Seps.AI to the customer folder.
